Contents

Chromatographic study of radiolitic decomposition of organochlorine pesticides in soils under gamma radiation
N.A. Ibadov, M.A. Gurbanov, M.A. Samadov, S.SH. Mammadzada, F.Y. Humbatov.....**5**

Detection and characterisation of free radicals in Guneshli oils using electron paramagnetic resonance
M.K. Ismayilova, R.J. Gasimov, M.A. Bayramov, S.G. Mammadov, S.Z. Melikova, A.M. Alasgarov.....**12**

Dielectric relaxation in gamma-irradiated TlS crystals
S.M. Gahramanova.....**19**

Effect of γ-radiation defects on the electrophysical properties in the p-CuTlS monocrystal
R.S. Madatov, G.B. Baylarov, R.M. Mamishova, U.F. Faradjova…….....**24**

EPR study of the modern tooth enamel
S.G. Mammadov, M.A. Bayramov, A.Z. Abishov, A.S. Ahadova.....**30**

Form factor of excited baryon at finite temperature
N. A. Nasibova.....**36**

Impact of n-ZrO_2 on the radiolysis of hexane
Sh.Z. Musayeva.....**42**

Influence of pre-radiation-oxidizing treatment on the specific resistance of zirconium
T.N. Aghayev, G.T. Imanova, S.Z. Melikova, A.G. Aliyev.....**48**

Millisecond delayed light emission of "*Hibiscus Rosa sinensis*" under the action of various doses of UV-B radiation
I.Y. Fridunbeyov.....**53**

Study of the effect of radiation and drought stress on some physiological and technological features in Vugar durum wheat genotype
J.R. Orujova, T.I. Allahverdiyev.....**58**
