

## **CONTENTS**

|                                                                                                                                                                                                                                                                                          |           |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|
| Size effects in radiation-catalytic processes of water decomposition and perspectives of use of nanocatalysts in this field<br><b>A.A. Garibov.....</b>                                                                                                                                  | <b>5</b>  |
| Radiation stability of bituminous oils and its tar fraction<br><b>I.I.Mustafayev, S.F.Aliyeva-Cicek, N.G.Guliyeva, R.S.Rzayev.....</b>                                                                                                                                                   | <b>14</b> |
| Radiation-chemical transformation of synthetic oil from oil-bituminous rock<br><b>L.Y. Jabbarova, I.I. Mustafaev Z.O. Nabizade, R.S. Rzayev, N.A. Ibadov.....</b>                                                                                                                        | <b>22</b> |
| Influence of radiation and thermal annealing on electro-physical properties of Ge <sub>1-x</sub> Si <sub>x</sub> films<br><b>R.S.Madatov, Sh.M.Abbasov, U.F.Faradjova.....</b>                                                                                                           | <b>27</b> |
| New alpha particle counter based on micro-pixel avalanche photodiode<br><b>F.Ahmadov, G.Ahmadov, N.Anfimov, A.Garibov, E.Guliyev, Z.Krumshstein, R.Madatov, A.Olshevski, A.Sadigov, Z. Sadygov, A. Titov.....</b>                                                                        | <b>33</b> |
| Superionic conductivity and specific effects induced by $\gamma$ -radiation in nanofibrous A <sup>3</sup> B <sup>3</sup> C <sup>6</sup> <sub>2</sub> type crystals<br><b>R.M. Sardarly, O.A. Samedov, A.P. Abdullayev, R.Sh. Aqayeva, F.T. Salmanov, N.A. Aliyeva, A.A. Orujova.....</b> | <b>37</b> |
| Nanostructured materials based on nano-ZrO <sub>2</sub> in the nuclear-power engineering<br><b>A.A.Garibov, T.N.Agayev, G.T.Imanova.....</b>                                                                                                                                             | <b>50</b> |
| Influence of temperature and density of water vapor on the yield of molecular hydrogen in the presence of radium-silicate<br><b>A.A.Garibov, T.N.Agayev, Z.A.Mansimov, K.T.Eyyubov.....</b>                                                                                              | <b>57</b> |
| Defect formation in borosilicates by a resistance method at $\gamma$ -quantum irradiation<br><b>A.A.Garibov, S.Z.Melikova, Sh.S.Ismailov.....</b>                                                                                                                                        | <b>61</b> |
| Studying the role of disulfochloride benzine in unsaturated elastomers<br><b>S.M.Mammadov, S.A.Rzayeva, T.F.Gojayeva, A.A.Garibov, A.I.Azadaliyev, J.S.Mammadov, E.M.Aliyev, S.Z.Malikova.....</b>                                                                                       | <b>64</b> |
| Comparative study of the radioprotective properties of extracts of calendula, chamomile and milfoil<br><b>E.N.Shamilov, A.S.Abdullayev, I.A.Rzayeva, Z.H.Muslumova, I.V.Azizov.....</b>                                                                                                  | <b>72</b> |
| Study of radiation degradation of phenol in aqueous solution by UV spectroscopy.....<br><b>U.A.Gulieva, M.A.Gurbanov, H.M.Mahmudov</b>                                                                                                                                                   | <b>76</b> |
